Fully functional, using free webhosting ac c2c, thus totally anonymous.
Some capabilities added are stealing password from chrome and firefox.

django - Social Network
2nd Year (2017)

A social network, where you can add friends and send messages, realtime
to be implemented using django-channels

Python - ssh-bruteforcer, admin-page-finder, local file search
2nd Year (2016)

ssh-bruteforcer as the name suggests and the other one helped in web
admin-page finder, cause finding files have been a headache

OTHER PROJECTS

PHP - Social Network
2nd Year (2016)

A social network, where you can add friends and send messages, no
realtime support (earlier version of the django website)
